

Welcome to a Special Innovation Finance Birthday Bulletin!

If you didn't already know, we at Innovation Finance are, this very month, celebrating our first anniversary and with this comes the launch of our new website. This is a great addition to our brand recognition giving you the chance not only to meet the team but also find out a little more about the services and service levels we provide.

www.ifltd.org

During our first year we have taken on some great new clients, run some excellent networking and hospitality events and grown some fantastic businesses, not to mention made some incredible new friends..... what better way to endorse the value we bring!!

It will come as no surprise then that Innovation Finance has been consistently bowling out the opposition and batting well above the average. You might say the conditions for flexible funding solutions are good with flat ground (banks not lending) and warm dry weather (the number of new companies setting up has increased by 9.4% from this time last year). However we at Innovation do not just offer solutions; we tailor make them.....

So once again, below is a little reminder as to what makes IF truly different, Perhaps you know someone who may benefit from the IF Advantage?

Partnerships matter to Innovation Finance; it's about trust and commitment as well as profit.

We want to build long term relationships with all our introducers & clients upon a mutual understanding of each other's aims and aspirations. To reflect our commitment to the high standard of service on offer, we provide our clients with a service pledge.

The IF Advantage

✓ Flexibility

The funding provided by Innovation Finance naturally grows with the client's business thus giving them greater flexibility. The more successful the client is, the more funding we can make available.

✓ Personalised

The client's business will have a dedicated management team who will provide on-going support to them and their business. We understand that running a business requires hard work and dedication; we devote that same commitment and dedication to the client.

✓ Cutting-Edge Technology

The latest streamlined systems mean that the client will never be left behind; speed is often the key in making decisions and winning new business. Our facilities will give the client the confidence, time and technology to make the right choices.

✓ Peace of Mind

Our management team, who between them have over 80 years experience in supporting SMEs to successfully grow their businesses, gives the client the confidence to develop and continue their success.

✓ No Hidden Costs

We at Innovation Finance believe in transparency and clarity.

If you have a client that you think needs the IF Advantage then please call us FREE on 0800 074 3443
